

Check-in & Check out info

Before arrival we will send you your own personal access-code.

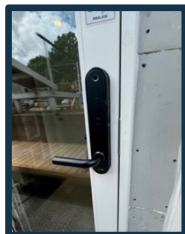

When you arrive, the access code will work for the outside door and front door of the apartment.

How to get to the apartment

1) Take the wooden path leading down

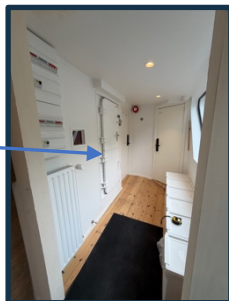

2) Activate the black keypad by pressing anywhere

3) When it lights up, put in your personal code (with a # behind)

4) Find the air bnb front door by turning right down the hall.

The apartment is on the left.

There will be 2 keys hanging in the apartment you can use for easy access. The access code will be active during your entire stay.

Baggage/Luggage

It is possible to come to the ferry before 15.00 and leave your luggage in a storage box. It is naturally also possible to leave your luggage in the same storage boxes after check-out.

The same 2 storage boxes will be used by the people checking in and out, so you will have to accept that both parties have access.

If you want private storage, I will guide you to some storage points later in this document.

Storage boxes

We have 2 storage boxes. 1 Under the platform and 1 in a box on the side of the ferry.

Storage-box 1 – under platform

This storage box is the biggest of our boxes. You access it by opening the lock and pull the flap down so it hangs alongside the wall.

The box is waterproof.

Storage-box 2 – Box on side

This storage-box is smaller and will suit you, if you only have hand-luggage.

To use it, open the padlock (be careful it does not fall into the water) and open the lid.

The box is mostly waterproof, but inside there is an extra waterproof bag to make it 100 % waterproof. If it is a rainy day, use this bag as well.

I'll give you the padlock numbers on the Airbnb thread if you ask for it.

Check-Out Information

Check-out time

Check-out time is at 11.00.

Please respect the check-out time as the cleaner needs to clean before other guests may arrive at 15.00. Thanks 😊

Cleaning

You have paid for cleaning, so you don't need to clean the apartment. However please tidy up after yourself and wash up any dirty dishes, so the cleaner can clean 😊

Garbage

You may leave the garbage bag in the garbage bucket under the sink with the lid on and it will be emptied by the cleaner or leave garbage in the bins in the hallway.

The bins in the hallway are:

- 1) Bottles and cans with the recycling symbol on. This can be plastic or glass.
- 2) Glass without the recycling symbol. This can be bottles or jars
- 3) Anything else

Please don't leave any garbage in the apartment in an unclosed bag as it will attract flies.

Bedlinen & Towels

When you leave the apartment please leave the towels in the bathroom on a drying rack or on the floor and leave the bedlinen on the beds. We will take them off for you.

Keys

Please make sure the door to the apartment is locked and leave the keys on the hook in the apartment. When you close the main door to the ferry after you, it will automatically lock.
