

Check-in & Check out info

Before arrival we will send you your own personal access-code that will work only during your stay.

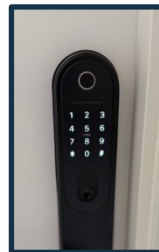

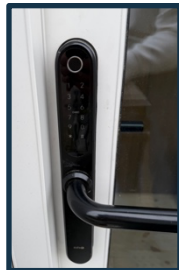

When you arrive, the access code will work for the outside door and the door to the apartment. Inside the apartment there will be 2 keys hanging for easy access. The code will work during your entire stay.

How to get to the apartment

1) Choose the path going up

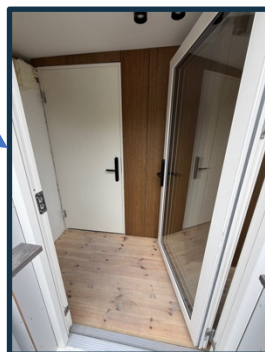

2) Active the black keypad by pressing anywhere

3) When it lights up, put in your code followed by a #

4) when you enter the outside door, you will see the apartment front door straight ahead

5) It is the same access code – follow step 2 & 3 again

Baggage/Luggage

It is possible to come to the ferry before 15.00 and leave your luggage in a storage box. It is naturally also possible to leave your luggage in the same storage boxes after check-out.

The same 2 storage boxes will be used by the people checking in and out, so you will have to accept that both parties have access.

If you want private storage, I will guide you to some storage points later in this document.

Storage boxes

We have 2 storage boxes. 1 Under the platform and 1 in a box on the side of the ferry.

Storage-box 1 – under platform

This storage box is the biggest of our boxes. You access it by opening the lock and pull the flap down so it hangs alongside the wall.

The box is waterproof.

Storage-box 2 – Box on side

This storage-box is smaller and will suit you, if you only have hand-luggage.

To use it, open the padlock (be careful it does not fall into the water) and open the lid.

The box is mostly waterproof, but inside there is an extra waterproof bag to make it 100 % waterproof. If it is a rainy day, use this bag as well.

I'll give you the padlock numbers on the Airbnb thread if you ask for it.

Check-Out Information

Check-out time

Check-out time is at 11.00.

Please respect the check-out time as the cleaner needs to clean before other guests may arrive at 15.00. Thanks 😊

Cleaning

You have paid for cleaning, so you don't need to clean the apartment. However please tidy up after yourself and wash up any dirty dishes or put in the dishwasher, so the cleaner can clean 😊

Garbage

You may leave the garbage bag in the garbage bucket under the sink and it will be emptied by the cleaner or leave garbage in the bins in the hallway next to the key boxes (see previous picture). This hallway is next to our other apartment, so please respect this 😊

The bins in the hallway are:

- 1) Bottles and cans with the recycling symbol on. This can be plastic or glass.
- 2) Glass without the recycling symbol. This can be bottles or jars
- 3) Anything else

Please don't leave any garbage in the apartment in an unclosed bag as it will attract flies.

Bedlinen & Towels

When you leave the apartment please leave the towels in the bathroom and leave the bedlinen on the beds. We will take them off for you.

Keys

Please make sure the doors to the apartment are locked and leave the keys in the key box. When you close the main door to the ferry after you, it will automatically lock.

Baggage

It is possible to leave your bags after check-out if you have the day to explore Copenhagen. Please contact us, if you need to do this.
