

Information about the Apartment

General info

Smoking

***The ferry is a non-smoking ferry – inside and outside! ***

If you need to smoke please step onto land. There is a bucket on our platform where you can leave your cigarette buds.

Internet

The Internet is 'Business Lounge'. The password is: MarkWaterside.

Air-Condition

To use the remote, hold it close to the top right side of the box. If for some reason the light is flashing, the best way to restart it is to unplug it for 5-10 second and plug it in again – then it'll restart.

Roof top terrace and locking the door

The back door going out to the balcony will lead you up to the Roof top Terrace. The roof top terraces is a shared terrace, but you are welcome to use the terrace for dinning or just relaxing in the sun.

To lock the door again, lift up the handle before turning the lock.

The bottom terrace is a private terrace, so please don't go down the stairs.

Bathrooms

Water & toilet

Even though you are on a ferry, the toilet and taps are connected to the normal systems on land. Therefor it is a normal working toilet and normal drinking water in the taps. However, to get the water from the ferry to the landside, we have a pump. **So please don't put anything else than normal toilet paper in the toilet as it will stop the pump!**

The light switch is a light dimmer switch. If you want a brighter light, just hold the switch in until it has the strength you wish.

As it is a ferry made of metal, the space is small. But when you are showering, just think that you are showering within a ferry chimney ☺

Shower

The shower works by turning the left knob to turn the water on, and the right knob to choose the temperature.

Toilet paper & Kitchen roll

We will leave at least 1 toilet roll pr. person and 1 kitchen roll for your use during your stay. If you need more, feel free to buy it at one of the nearby stores (See more info on stores).

Kitchen

Washing up

The apartment has a dishwasher. We will provide you with soap, brush, cloth, tea towel etc. You'll find the washing up basin under the sink.

Coffee

We will provide you with some organic grinded coffee so that you can make yourself a nice cup of coffee. Please do not uncover the large coffee machine that we have covered with a hood.

Salt, pepper & etc.

We will make sure there is salt and pepper for your use and some coffee to start off your stay.

Garbage

We sort garbage in Denmark. Please put plastic/metal in one of the beige bins and recyclable cans and recyclable glass bottles in the other beige garbage bins at the end of the kitchen.

Food goes in the green basket (only with green bags) under the sink. All other garbage goes in the grey plastic bin also under the sink.

Beds & sleeping arrangements

Bedlinen & Towels

We have provided bedlinen and towels for your stay. We will provide 1 bath-towel and 1 hand-towel per person.

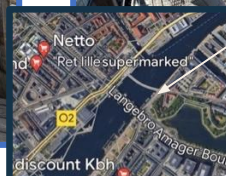

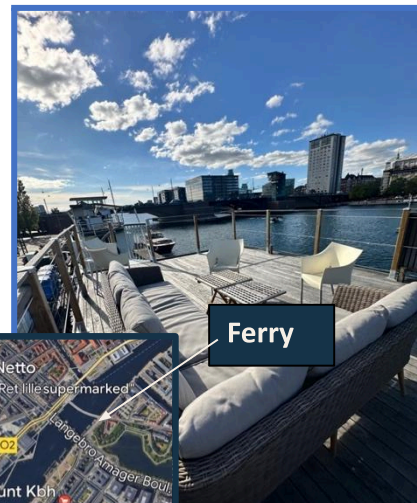

If you are staying for 5 days or more, we provide a change of towels half way.

Terrace

You have access to the shared roof top terrace. You find the roof top terrace by exiting the back door and going up the winding staircase. Please don't go down to the lower terrace.

The ferry is a non-smoking ferry, which also includes the roof top terrace. It is important due to fire and wooden terrace floors, that you do respect this rule.

Information about the neighborhood

Food shopping – Stores

The closest grocery store is Discount 365. Apart from 365, there is a Super Brugsen and 2 Netto's close by, that are also grocery stores.

Bakeries

If you want to buy nice homemade bread, we recommend 'Andersens bakery' or 'Hart'.

Further down Islands Brygge you will also find 'Lagkagehuset' and 'Emmerys' that sell homemade bread.

Local Café's

You can buy a very good cup of coffee at the bakeries mentioned before. On top of this we can recommend the coffee shop 'Roast Coffee', where they roast the coffee at the café.

Further down the road is the 'Kulturhus' that means Culture House. It is not anything special in regards to food or coffee, but it has a large sunny terrace by the water, that is very nice to enjoy a cup of coffee when it is warm and the sun is out ☺

Local restaurants

In the neighborhood we have some very nice restaurants. We can recommend a lot of them – But here are a few recommendable:

'Ponte Vecchio' <https://pontevecchio.dk>

'Scarpetta' <https://cofoco.dk/scarpetta-islands-brygge/>

Copenhagen has a lot of very good restaurants. It is difficult to mention only a few. Please google or ask with your budget range and wishes.

Take Away

There is a broad range of take-away places in the neighborhood including pizza & Durum rolls, Asian, burgers, sushi, bagels etc.

We recommend:

'Shawaføl' for Durum rolls,

'Hatoba' for Sushi

'Fatty's' for burgers

Use google maps and type in your desired food and you will find several matches.
